**STATEMENT FROM GRANT WOODS & DENNIS WILENCHIK**

Our clients are members of the Maricopa County Sheriff's Office and lifelong supporters of law enforcement that have been proud to be associated with the men and women of the Maricopa County Sherriff's Office. Some are employees of the office. They have all contributed money to help the image of the members given negative publicity from time to time as they do their difficult jobs. They had no knowledge of how the money was being spent and, except for some of those employed by MCSO, our clients never had any dealings with Joel Fox. Similarly, they had no dealings with the Arizona Republican Party concerning this matter, other than to contribute to the Republican Party. Between them, they have contributed in the past to countless candidates and causes of both parties.
