Date(s)      Describe what happened

11/11/2008 Daily sometimes multiple phone calls. Comming to my house twice daily knocking on the door persistantly. Parking in front of my house and wailing. Comming to my business multiple times, into my business and resisting when I try to close my door to him . Watching me at my business. This is all after I have asked and told him to leave and not return. I left town for five days to see if he would lose interest. While I was gone he posted note of on the door of my business that I believe were designed to defame me and deter business I have essentially had to close my business to avoid him, my wife and daughter are intimidated and fearful of him. I have reason to fear for the health and safety of my family and for my life. He also has written and delivered letters to my mail box that I see as extortion. These letters are placed in the mail box by him and not through the postal service This activity has persisted daily for eleven days.
